PETRONAS APPROVAL FOR ABRABLAST™ GLASS ABRASIVE BLASTING GRIT

We are pleased to inform that the abrasive materials listed in Attachment 1 have received **1-year extension of conditional approval** by PETRONAS Protective Coating Technical Committee (PPCTC) based on previously submitted SIRIM laboratory test reports and to allow pilot and/or field trial deployment within PETRONAS.

Consequent to the PPCTC deliberation, these products are approved to be used for all PETRONAS operating companies and its subsidiaries **effective from 3rd April 2026 until 2nd April 2027** or earlier subject to PETRONAS requirement(s).

The following are conditions that shall be read together with this approval;

- a) Only specific products listed in accordance with Attachment 1 Approved Abrasive Material(s) shall be used for any coating related works and/or projects.
- b) PETRONAS reserves the right to partially or completely withdraw approval given to manufacturer/supplier should there be any technical discrepancies or non-performance found with the products or services.
- c) PETRONAS and its subsidiaries also have the right to make full reimbursement to the manufacturer/supplier on expenses incurred as a result of product discrepancies that affected the quality of work.
- d) Manufacturer/supplier provide sufficient information and training to applicator as part of quality and performance assurance.
- e) At any given time or condition, PETRONAS may randomly request the manufacturer/supplier to submit abrasive material(s) for quality testing to accredited third party laboratory to ensure the supplied products to the market are sustainably meeting the initial product specifications and compliance to PETRONAS requirement. The cost of this testing shall be borne by the coating manufacturer.
- f) Manufacturer/supplier shall notify PPCTC secretariat should there be any changes with the approved products, which include but not limited to composition, raw material, et cetera.

- g) **3 months** prior to the expiry of this approval letter, manufacturer/supplier shall submit to PPCTC a new application for product approval if the manufacturer/supplier intends to continue supplying the product to PETRONAS.
- h) This letter supersedes all products approved letter previously issued to the manufacturer/supplier.

Thank you.
